HEALTH AND SAFETY POLICY		

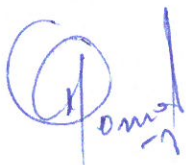

Seaspan Ship Management Ltd. (SSML) is committed to establishing safe, reliable, and economical operations. The company has implemented the Seaspan Management System (SMS) which incorporates the following aims and objectives:

- 1) Provide safe work practices and a safe work environment for our shipboard personnel.
- 2) Establish control measures against all identified risks.
- 3) Prevent injury and ill health among all personnel.
- 4) Continually improve the SMS to ensure its effectiveness.

SSML will achieve these aims and objectives through the following measures:

- 1) Establish controlled, documented procedures and guidance for safe operation, a safe work environment and the reduction of risk.
- 2) Provide suitable and sufficient resource, training, instruction and information to all shipboard and shore-side personnel to secure personal contribution towards injury and incident prevention.
- 3) Conduct shipboard and shore-side drills and training to ensure personnel are prepared for emergencies.
- 4) Conduct shipboard and shore-side audits and inspections to determine the effectiveness and implementation of the SMS.
- 5) Review the SMS on a continual basis to ensure that the documentation is effective in satisfying the requirements according to the applicable codes, regulations, guidelines and standards within which SSML operates.
- 6) At Seaspan we shall never compromise anyone's Health and Safety for commercial gains

The SSML Health and Safety Policy will be implemented throughout the organization and made available through the Company Website.
